

N-Series

Professional LCD Displays

Ideal Solution for Professional Environments

Featuring multiple orientations, these 24/7 rated, 4K UHD, 65" - 98" displays are built for usage in corporate lobbies and retail spaces, conference rooms, lecture halls and digital signage.

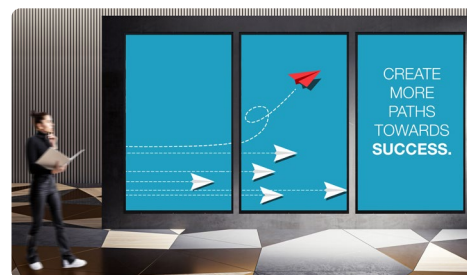

On Time Delivery

Optoma's N-Series is the ideal solution for digital signage with a built-in media player and scheduling functionality. Create, customize and schedule media playlists and display content at a specific date or time.

Powerful Benefits

Available in 65" - 98" sizes, the premium, 4K UHD LCD display line features commercial-grade construction, high brightness, blue light filter and flicker-free technology. Features 24/7 uninterrupted use and productivity software ready out-of-the-box.

Create an Array

Multiple displays can be mounted in an array to create impressive tiled video walls without separate video processing. Built-in digital signage features like customized boot-up options and status light disablement, ensure eyes are focused on content not distracting display lights and functions.

Any Orientation

Mount N-Series in a traditional landscape orientation for video conferencing and meetings, portrait orientation for elongated menu boards or at any angle for unique digital signage applications.

Real Time Collaboration

Use Optoma Solution Suite (OSS) to wirelessly broadcast, stream, or cast from any device using Display Share, connect and collaborate with any cloud Whiteboard session, such as one shared from an Optoma Creative Touch Interactive Display, and even access and manage your cloud storage in File Manager.*

Optoma Management Suite (OMS®)

Streamline operations with advanced cloud-based** remote management.

Provides monitoring, diagnosis, and control of displays, broadcasting of announcements and alerts, and signage playback.
