

SC26C

4K USB Camera

- **Outstanding picture quality and clarity - 4K Ultra HD video at 30fps**
- **Wide angle - 101-degree field of view**
- **Advanced AI technologies - Image recognition focuses on the person speaking**
- **Dual-channel microphone with pickup range of 0~13 ft. / 0-4 meters**

The SC26C 4K USB Webcam delivers incredible picture quality and clarity with 4K Ultra HD video at 30 frames per second and a layered optical glass lens. The wide-angle 101-degree field of view means nothing gets missed during your meetings.

The pioneering 2D and 3D DNR technology in the SC26C delivers incredible image quality and ensures crisp and clear visuals for videos and photos. From low light to bright backlit, high dynamic range (HDR) technology automatically adjusts so you always look your best.

Empowered with advanced AI technologies*, including face detection, the camera's auto-framing feature automatically adjusts to the best framing solution for the number of visible participants and their position in the frame. The easy-to-use VAP Studio software adds control over your camera's features, while the included Type-C cable gets you started in seconds with a simple plug-and-play design.

*VAP Studio software may be required for some configuration changes, such as enabling/disabling AI capabilities.
